The Department of Entomology will fill a tenured Endowed Chair with an internationally recognized mid- to senior-career scientist in any aspect of Urban Entomology available October 1, 2017. The successful candidate will conduct fundamental and applied research on insects of importance to California’s urban environment and structural pest control industry. Research areas could include, but would not be limited to behavior, ecology, genetics, physiology and toxicology of urban and structural pests. The successful candidate will be expected to take a leadership role in urban pest management programs and interact with the structural pest control industry and the public. Research efforts must be consistent with the mission of the Agricultural Experiment Station and directed towards managing insects of importance to structures in the urban environment. Applicants must hold a Ph.D. in Entomology or related Life Science discipline. The successful candidate must demonstrate evidence of strong training and experience with modern biological approaches to the study of integrated pest management of insects of importance in the urban environment.

All application materials should be sent to https://aprecruit.ucr.edu/apply/JPF00734. Questions regarding this position should be directed to Dr. John Trumble, Chair of the Endowed Chair in Urban Entomology Search Committee at john.trumble@ucr.edu. Review of applications will begin April 1, 2017 but the position will remain open until filled. Information about the Entomology Department and an expanded position description can be found at: http://www.entomology.ucr.edu.

UCR is a world-class research university with an exceptionally diverse undergraduate student body. Its mission is explicitly linked to providing routes to educational success for underrepresented and first-generation college students. A commitment to this mission is a preferred qualification.

Advancement through the faculty ranks at the University of California is through a series of structured, merit-based evaluations occurring every 2-3 years, each of which includes substantial peer input.

The University of California is an Equal Opportunity / Affirmative Action Employer with a strong institutional commitment to the achievement of excellence and diversity among its faculty and staff. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age, disability, protected veteran status, or any other characteristic protected by law.
