Gain valuable job knowledge with the Indiana Division of Fish and Wildlife in 2020. The Division annually employs approximately 25 seasonal naturalist aides to assist biologists with fisheries projects. There are a range of positions with desired start dates as early as March 1, 2020.

**Compensation**
$10.75/hour - subject to change. Seasonal naturalist aides work up to 37.5 hours/week.

**Responsibilities and Assignments**
Seasonal naturalist aides are hired approximately spring through fall to assist district fish management and research biologists in conducting field and laboratory investigations. This includes lake and stream fish population surveys, angler surveys, fish population estimates, water quality analysis, and vegetation management. Aides assist with biological research projects by gathering and processing data and performing related duties such as operating, maintaining and constructing the equipment used to collect data.

**Working Conditions**
Seasonal naturalist aides work outdoors in all types of weather conditions. Physical labor can include lifting, walking and working in and around water and in a variety of outdoor and indoor environments. Work assignments may include varied schedules and hours.

**Requirements**
Seasonal naturalist aides must have a valid driver license and an acceptable driving record.

**Desired Skills**
Applicants for these positions are expected to have basic knowledge of math and scientific methods, as well as the ability to communicate effectively with the public. Students with a background in fisheries/aquatic sciences are preferred.

**Locations**
Winslow, Bloomington, Martinsville. Locations at Winslow and Martinsville provide free housing. Positions in the northern half of the state will be open soon also.
