Hello from Walt Disney World in Orlando! The Agricultural Sciences team is looking for undergraduate college students and recent graduates who have received their Bachelor’s degree within 6 months of our internships’ start dates to participate in our fun and challenging six-month hands-on internship in several different agricultural and science education fields including Plant Science, Entomology, Biotechnology, and Aquaculture. Feel free to forward this email along to students and career centers at your university.

We’d like to ask for your assistance in advertising this internship opportunity to students at your university by forwarding this email to students and faculty. We are currently looking for students to fill internships for the Fall 2019 term (June 2019 – January 2020). Please encourage students to apply as soon as possible to get the process started.

Desired majors include but are not limited to: Ag. Communication, Ag. Education, Agribusiness, Agriculture, Agronomy, Aquaculture, Aquatic Biology, Biology, Biotechnology, Botany, Crop Science, Biological and Biosystems/Agricultural Engineering, Entomology, Environmental Horticulture, Fisheries, Food Science, Horticulture, Landscape Design, Marine Biology, Microbiology, Molecular Biology, Ornamental Horticulture, and Plant Science.

Attached, interested applicants will find information on our internship program as well as how to apply. We would also like to share a video that the Walt Disney Company created to showcase one of our plant science interns, which features her love for agriculture and why she chose to do the internship. You can find the video at this link: https://www.facebook.com/DisneyWorldCommunity/videos/2336870386546562/?t=74

Interested students should apply online and should attach their cover letter, resume and school transcript to their application. Selected students will be interviewed via phone to further discuss the internship.

Please refer interested students to http://www.disneyinterns.com/science. Have them click on “Enter Job Title or Keywords” then do a keyword search for “Agricultural Sciences” to view internship postings about the Plant Science, Entomology, Biotechnology, and Aquaculture internship positions along with many other science related internship openings. If students have any questions with accessing the site, please have them email us directly at WDW.EPCOT.Science.Internship@disney.com.

Thank you for your assistance in helping us share the news about this exciting internship opportunity with your students, and don’t hesitate to contact us with any questions.

Sincerely,

Les Frey
