A bonus personal note from the owner:

I graduated from NREM in 2009 and hopefully, have not already lost touch with what it means to be a college student. To be successful here is simple: be polite, communicate effectively with me and our customers, and just generally be nice, and your time here will be beneficial. I started

here as a part time employee myself 10+ years ago and would be happy to be a steppingstone to help you accomplish your goals in the near and distant future. – Scott
