Assistant Professor of Agricultural Entomology - University of Maine

The School of Biology and Ecology at University of Maine, Orono, has a tenure-track Assistant Professor of Agricultural Entomology position available. This position is a 9-month, full time academic appointment with 75% research and 25% teaching responsibilities. The successful applicant will address key pest management concerns of the wild blueberry industry in Maine and will develop a nationally competitive externally funded research program in insect pest management. An interest in pollination biology and/or insect ecology also is preferred. This position would have the potential to collaborate with a number of current research programs in entomology, plant pathology, crop physiology, weed science, ecology and climate change. Teaching responsibilities will include a mid-level undergraduate course in applied entomology and a graduate course in insect ecology taught in alternate years. Mentoring graduate and undergraduate students in insect ecology and pest management research is expected.

Please see https://umaine.hiretouch.com/job-details?jobID=53235 for a complete job description, information about University of Maine and submission of an application. A Ph.D. in a relevant field is required and post-doctoral or equivalent experience preferred. Review of applications will begin on February 22, 2019, and will continue until the position is filled. Inquiries or questions can be sent to Dr. Seanna Annis, chairperson of the search committee (sannis@maine.edu).

The University of Maine is an EEO/AA employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, sexual orientation, age, disability, protected veteran status, or any other characteristic protected by law.
