I would like to post this job ad on the listserv. thanks.

We are searching for an Assistant Professor of Ecology

We invite applications for a tenure-track Assistant Professor position in Ecology to begin Fall 2018. We seek a broadly trained ecologist to teach General Ecology. Additional teaching responsibilities may include majors level introductory Organismal Biology/Evolution, and Theory of Evolution, and non-majors lower division General Biology or Protecting Biodiversity. General expectations of faculty include teaching six course equivalents per year (12-14 contact hours/week during the semester), academic advising, service to the Department and College, professional development and active scholarship. Candidates must have a Ph.D. in Ecology. Postdoctoral experience is preferred. Research experience in Animal Behavior and/or Molecular Ecology are preferred. Candidates must show a record of teaching excellence at the undergraduate level. Teaching experience in courses similar to those listed above would be considered favorably. Candidates should have evidence of scholarly achievement and a research program that is sustainable at a small liberal arts college and suitable for undergraduate involvement. Applicants should apply through Interfolio online system at: http://apply.interfolio.com/43161. Complete applications will include: i) cover letter that specifically addresses your qualifications and commitment to support the mission of the College and a diverse student body, ii) curriculum vitae, iii) teaching philosophy, iv) research plan, v) transcripts (undergraduate and graduate, unofficial okay), vi) three confidential letters of reference uploaded through Interfolio. Application deadline is September 30, 2017. Email, fax, and paper applications will not be accepted. The full ad can be viewed at the interfolio website listed above. St. Mary’s College of California is a private, comprehensive, Catholic, and Hispanic-serving institution committed to working with a diverse student population. Located on a stunning 420-acre campus in the Moraga Hills outside of San Francisco, Saint Mary’s is listed in the Colleges That Changes Lives and is known for its rigorous liberal arts education. Questions about the position should be directed to Dr. Michael P. Marchetti (mpm9@stmarys-ca.edu).
