

Invasive Species Management Technicians (2)

Bear Lake National Wildlife Refuge

Bear Lake NWR is seeking 2 motivated interns through the Great Basin Institute to work on invasive species management and learn about the tenets of National Wildlife Refuge management. This is a fantastic opportunity to build your resume and work in a beautiful part of the western U.S. close to Bear Lake, the “Caribbean of the Rockies”, and two hours away from Jackson, Wyoming and Grand Teton National Park.

Primary Duties include:

- Activities related to Eurasian watermilfoil, curlyleaf pondweed and common reed include surveillance, mapping, and control.
- Application of pesticides to control invasive species. This will occur under direct supervision of a licensed pesticide applicator.
- Maintain operation of 24 water control structures and associated fish screens, and run daily checks on carp traps.

Training includes: Opportunity to obtain Idaho State Pesticide Applicator License, and ATV/UTV operator.

Must be comfortable hiking in waders through bulrush wetlands up to 5 miles a day, be comfortable on boats and other vehicles that operate over water.

Dates and Compensation: 19 week appointment beginning June 2020, \$400 biweekly stipend, \$2321 AmeriCorps education award upon completion of term, co-ed housing in U.S. Forest Service Bunkhouse in Montpelier, ID
