Position: M.S. Research Assistantship

Project Title: Potential Effects of Climate Change on Bluegill Population Dynamics in the Midwest

Location: Wisconsin Cooperative Fishery Research Unit, University of Wisconsin-Stevens Point

Salary: $17,000 and tuition is paid

Start Date: June 1, 2021

Project Description: Student will compile and analyze data from bluegill populations across the Midwest to determine factors influencing growth and size structure. This information will be used to assess how climate change may affect bluegill fisheries in the future. The project involves some field work but is primarily an analytical exercise that is part of a larger research collaboration with the Center for Limnology at the University of Wisconsin-Madison.

Qualifications: BS in Fisheries, Biology, Ecology or related field with GPA ≥ 3.0 and verbal and quantitative GRE scores ≥ 150.

To apply: Please email cover letter, CV/resume, unofficial transcripts, unofficial GRE scores, and contact information for three references to Daniel Isermann (dan.isermann@uwsp.edu). Materials must be received by February 20th for consideration. Additional questions regarding the project should be sent via email (dan.isermann@uwsp.edu).
