Title:
Upland game field technician

Agency:
Iowa State University

Location
Southeastern Iowa

Salary:
$11.50/hour for 40 hours/week (housing provided)

Start date:
May 11, 2020

Last date to apply
3-30-20

Job Description:
We are in search of 2 seasonal field technicians to assist with research on northern bobwhite and ring-necked pheasant nesting ecology in and around cover crop fields in Iowa. Positions will start in May and continue until the end of the nesting season in August. Summer field work will focus on radio telemetry, point counts, monitoring nest sites, sampling vegetation, and some invertebrate sampling. Routine monitoring and relocating of radiomarked bobwhites and pheasants will continue through the dispersal and nesting season. Housing will be provided in Mt. Pleasant, Iowa.

Qualifications
Successful applicants will be expected to work long hours in variable conditions. Characteristics of successful applicants include a hard work ethic, strong communication skills, attention to detail, and an interest in a career in wildlife conservation. Applicants with experience with radio telemetry, and experience working with landowners are preferred (but not necessary).

To apply, please send an email with the subject line “Upland game technician”, a description of your interest in the position and available start and end dates, resume or CV, and contact information for three references to Taylor Shirley at tshirley@iastate.edu by March 30th, 2020.
