There is a job opportunity (with a 90/10 split appointment) for a crops entomology specialist (Ph.D. required) for the University of Maine Cooperative Extension / the University of Maine at Presque Isle.

Would you please pass this information onto those who have recently earned (or will soon be earning) a Ph.D. in entomology? Thank you.

Here is the link to the job position announcement.

Respectfully,

Richard J. Brzozowski
Food System Program Administrator
University of Maine Cooperative Extension
