

Ecology field technician jobs at Schoodic Institute at Acadia National Park

Schoodic Institute at Acadia National Park is looking to fill 3 temporary, full-time Field Technician positions:

Forest Ecology Technician (May 20 – October 25, 2019): Technician will primarily work on forest research projects, including identifying, tagging, and measuring over story and understory trees and ground-layer vegetation. Additional duties and projects include monitoring of planted seedlings and seeds within a climate adaptation experiment, plant phenology monitoring, citizen science and Earthwatch projects, data entry and management, and temperature logger data collection and management.

General Ecology Technician (June 3 – November 1, 2019): Technician will work on all aspects of a wide variety of projects including intertidal research, bird surveys, citizen science with Earthwatch, and forest sampling. Duties include preparing for fieldwork and collecting field data, data entry and management, and sensor deployment and management.

Citizen Science Technician (June 3 – November 8, 2019): Technician will work with science staff and Earthwatch volunteers. Technician will lead groups of Earthwatch volunteers in safe and scientifically rigorous field data collection on upland and intertidal biodiversity research.

Application deadline: February 22, 2019.
