Program
Specialist III](#)

www.iastatejobs.com

The Iowa State University Extension and Outreach Pesticide Safety Education Program (PSEP) is seeking an Extension Educator (Pesticide Education Specialist) trained in Entomology, Plant Pathology, Horticulture, or other related field to join our nationally recognized PSEP. As a member of the PSEP, the individual will be responsible for actively working to identify important educational learning objectives, develop

numerous educational materials and video programs, and present at educational events to support these learning objectives throughout the state. The individual will be expected to support the program's established deliverables. The individual in this position will be able to provide educational information throughout Iowa on pesticide modes of action, formulations, application techniques, toxicity and hazard, drift, and effects on the environment. Educational information will be focused on ornamentals, turfgrass, and other specialty based programs (e.g., greenhouse, forestry, aquatics, right-of-way
