**Subject:** biologist opportunity

Michigan DNR just posted two permanent Fisheries Biologist positions. One in Waterford (Lake Erie watershed) in my office and one in Bay City (southern Lake Huron watershed). Please forward to any qualified candidates that might be interested (bachelor's required). This is a great opportunity due to 2 retirements, might not be another opening for a while.

<https://www.governmentjobs.com/careers/michigan?keywords=Fisheries> Job number 7501-19-FISH-031 and 7501-19-FISH-025

Thanks!

Sara
