Friday Harbor Labs REU Program - Summer 2019

Friday Harbor Laboratories is now accepting applications for its NSF Research Experience for Undergraduates summer program!

The REU funds undergraduates to travel to Friday Harbor Laboratories (FHL) in Summer 2019 to work with researchers on topics in marine biology, ranging from evolutionary morphology, biomechanics, disease ecology, community ecology, to developmental biology. FHL is a marine field station in the San Juan Islands of Washington state, run by the University of Washington. The 8-week internship covers a stipend, room and board, and travel to and from the labs.

The application deadline is February 1, and you can apply through the website below. Please do not hesitate to get in touch with me with any questions (stacy.farina@howard.edu). https://fhl.uw.edu/research/student-financial-aid-for-research/research-fellowships/summer-research-internships/
