**Subject:** Looking for field crew

Hello John,

My name is Ben Brenizer and I work in Aaron Gassmann's lab in the Entomology Department. I'm looking for 5 to 6 employees to assist me in running field research projects this summer. I was hoping you could help me in my search for student employees. Below is a brief description of the job:

**Job Location:** On campus/Iowa State Research Farms

**Description:** Maintaining of field research plots, assisting with collecting western corn rootworm from research plots around Iowa, and assisting with collecting and processing samples collected from the field.

**Job Skills/Requirements:** Agricultural experience preferred, but not required, ability to work outdoors for 8+ hours a day, understanding of basic research practices, a valid driver's license preferred, and ability to lift 50 pounds.

**Pay:** \$11.00/hr

**Hours a week:** 40+

**Begin date:** May 11, 2020

Thank you,

Ben
