My name is Shane Delaney and I am the assistant forestry supervisor for the Warroad Area for the Minnesota Department of Natural Resources. We are currently hiring 2 forestry technicians in our area and I was hoping that you could place this job opening on your student board for past graduates as well as those graduating this December to view. The position is a field level position that involves a significant amount of time in the field. Technicians are involved in the timber sale process from start to finish-(setup & design, supervision, and regeneration), forestry inventory, and ecological classification of forest stands. Technicians are also heavily involved in wildland fire suppression in the area with opportunities to work statewide as well as out of state. The Warroad area has the highest fire workload in the state and also has opportunities to become involved in both helicopter and fixed wing aviation programs.

Long story short is that the Warroad area provides an excellent opportunity for folks to build a strong forestry experience foundation and also opportunities for those with a 4 year degree to advance within the Department of Natural Resources. The area is looking for hard working individuals to fill these vacancies.  *I am an Iowa State Graduate from 1996 and we have had several ISU alumni work in the Warroad area and advance up the ladder in the Minnesota Department of Natural Resources.*
