Please see the internship opportunities below and forward to anyone that might be interested in gaining coastal research and extension experience. Potential projects the selected applicants would work on can be found on our group’s website (http://coastal.msstate.edu/ccr). If you are an undergrad that graduates after December 2020, please apply for the first opportunity. If you have already graduated or will graduate prior to December 2020, please apply for the second opportunity.

1) Summer Undergraduate Internship/Apprenticeship:
Please see the links below for a paid undergrad internship (apprenticeship) opportunity. To qualify for this opportunity, you must not graduate before December 2020. This position will be based in Biloxi, MS at the MSU Coastal Research and Extension Center. All of the internship details and application instructions can be found in the links below, but please email me if you have any questions. The application deadline for this opportunity is February 14th. Please see the links below for required application materials.

Information Link: http://extension.msstate.edu/apprentice
Application link: https://msudafvm.co1.qualtrics.com/jfe/form/SV_7WIwTuce2Lb0q17

2) Post graduate or undergraduate internships:
If you are ineligible for the internship opportunity above (i.e., graduate prior to December 2020 or have already graduated), please email me your CV/resume, contact info for 2 references, and a brief (max of 250 words) letter stating what you hope to gain from this internship. These positions will also be based in Biloxi, MS at the MSU Coastal Research and Extension Center. There isn’t an application deadline for this opportunity. We are flexible on start and end dates, but the potential work period could start as early as March. The scope of work for this opportunity will also be focused on activities conducted by the Coastal Conservation and Restoration Program (http://coastal.msstate.edu/ccr). Email me if you have any questions.

Thanks,
Eric
