

# Clay County Conservation Board

## Seasonal Conservation Aide Positions

The Clay County Conservation Board is now accepting applications for seasonal conservation aide positions. These seasonal employees will be working approximately 12 – 16 weeks at 40 hours/week during the late spring and summer months. Some weekend work may be required throughout the course of the seasonal employment term.

Applicants need to be energetic, highly motivated, and possess strong leadership traits. Conservation Aides are required to be intelligent individuals who are willing to follow detailed directions from full-time staff members and perform high-quality work until objective completion. Conservation Aide duties and objectives will include: park and right-of-way maintenance, natural resources and wildlife habitat management, mechanical tree and brush removal in public right-of-way's (Integrated roadside vegetation management), equipment maintenance, operating of vehicles and equipment, assisting with environmental education programs and classes, land/water management, and assisting with any other conservation program activities.

The seasonal Conservation Aide positions will be compensated at \$10.25 - \$11.50 per hour. The 2021 seasonal applications will be accepted until all positions are filled.

For more information regarding this employment opportunity, please contact the Clay County Conservation Board. Job applications are available at: <http://claycountyparks.com/>

Sincerely,

Will Horsley, Director  
Clay County Conservation Board
