

# Seasonal Environmental Technician Cottage Grove, Wisconsin

Grounded in safety, quality, and ethics, our experts lead their fields and guide our work with rigor, a creative spirit, and vision for growth. We draw from more than 20 technical specialties around the globe and are committed to fostering an inclusive community of diverse talents, backgrounds, and expertise. We are a place to apply your passion and collaborate with top environmental talents on work that's critical to our clients and the communities they support. Join a team that has the environment down to a science.

## **Your Opportunity**

This is a seasonal position working with our Environmental Services (ES) group out of our Cottage Grove, WI office. You will assist in the development and delivery of environmental studies for a variety of resource, infrastructure, and development projects.

This is an exciting summer opportunity for a college student or recent graduate to gain excellent experience in environmental consulting. You will take what you have learned in the classroom and apply your skills and ingenuity to real world projects. As an Environmental Technician with Stantec you will gain a significant amount of experience in the field with plant identification, soil description and wetland delineation.

## **Your Key Responsibilities**

- Using GPS-enabled devices to guide and collect field data for field teams on wetland delineations, waterway mapping, vegetation and other natural community assessments, invasive species assessments, and rare species habitat assessments.
- Candidates should expect to spend most of their time performing fieldwork and be willing to travel overnight on a weekly basis throughout Wisconsin and beyond.
- Working long hours, outside, in variable weather conditions is typical for this position.

## **Your Capabilities and Credentials**

- Strong verbal and written communication skills.
- Strong note-taking skills and attention to detail.
- Basic understanding of technical writing skills.
- Experienced at working well in a team atmosphere and independently as required.
- Working understanding of policies and procedures for Health, Safety, Security and Environment, including client-specific training (as required).
- Working knowledge of field sampling techniques.

- Must have the willingness to learn new skills while conducting field work.
- Conscientious, dependable, organized, and disciplined.
- Good driving record and valid driver's license required.

### **Education and Experience**

Significant progress towards or completion of a Bachelors' degree in environmental science or related field with demonstrated plant identification training or coursework. Those completing their junior year or recent graduates are encouraged to apply.

*This description is not a comprehensive listing of activities, duties or responsibilities that may be required of the employee and other duties, responsibilities and activities may be assigned or may be changed at any time with or without notice.*

Stantec is a place where the best and brightest come to build on each other's talents, do exciting work, and make an impact on the world around us. Join us and redefine your personal best.
