Subject: JOB: Urban Forestry Seasonal Worker

Dear Midwest Urban Foresters and Job Seekers,

Please see the announcement below regarding a seasonal urban forestry position with the City of Highland Park, Illinois.

The City of Highland Park is looking for our next seasonal urban forester. Preferred start date of April 1st 2020, but will consider students graduating this spring. Link below. The City of Highland Park Forestry Section manages trees, public grounds, and other natural resources including ravines and Lake Michigan bluffs. We have a comprehensive street tree maintenance program including tree planting, annual cycle pruning, and removal. We have a very progressive tree preservation ordinance and regulate construction and development to preserve trees. We recently started conducting ecological restoration along our bike path by removing invasive buckthorn and replacing it with pollinator habitat. This 8-month position is an excellent entry-level introduction to municipal forestry. $22.59 Hourly.
