Work Authorization

Authorized to work in U.S. without current/future visa sponsorship., Temporarily authorized by student visa to work without sponsorship.

Description

Did you know there is a team of biologists, archeologists, historians, engineers, and other environmental specialists working at the Iowa DOT? We are here and dedicated to performing environmental stewardship and compliance activities for highway improvement projects. We want you to join us to learn about and assist with performing field work for wetland and protected species identification and habitat management, GIS analysis, report writing and production, data gathering and input, and other field and office support duties.

Educational Requirements: Undergraduate or graduate students in a natural resource, forestry, ecology, biology, environmental science or management, environmental planning or related field.

Preferred qualifications: Natural resource or environmental science background. Prefer a student who can start after spring semester and work full time through the summer. Must be willing to work outside as well as in the office. Prefer student who is at least a sophomore.

Salary starting at \$15.17/hr.

Duration options: Summer intern (40 hours/week) + part-time fall semester (up to 20 hours/week)

1 position available
