Title: Waterfowl Research Assistant
Classification: Temporary/seasonal
Agency: Clemson University, South Carolina Cooperative Fish and Wildlife Research Unit, and South Carolina Dept. of Natural Resources

Website: https://jobs.clemson.edu/psc/ps/JOBS/EXT/c/HRS_HRAM_FL_HRS.CG.SEARCH_FL.GBL?Page=HRS_APP_JBPST_FL&Action=U&FOCUS=Applicant&SiteId=1&JobOpeningId=105349&PostingSeq=1

Job Description:

We are currently seeking applicants for a 9-month research assistantship to develop a ground-based survey methodology and statistical analysis package to index the abundance of watering waterfowl on SCDNR waterfowl areas. This survey will serve as a ground-based means to substitute the mid-winter waterfowl survey. Survey methodology will be developed to account for detection probability, thus providing estimates of true abundance. The research assistant will work in the lowlands of South Carolina developing the survey followed by time at Clemson analyzing data. This is a collaborative project with the South Carolina Department of Natural Resources.

We are committed to maintaining a diverse and inclusive lab and encourage women, minorities, individuals with disabilities, and veterans to apply. Clemson University does not discriminate against any individual or group of individuals on the basis of age, color, disability, gender, national origin, race, religion, sexual orientation or veteran's status. Clemson University is an Affirmative Action/Equal Opportunity Employer.

Location: Clemson, SC
Salary: $22/hour
Qualifications: B.S. in wildlife management, natural resources, or biology required. Experience with R, waterfowl surveys, and state agencies a plus. Applicants should have good communication and writing skills and a strong work ethic. Master’s degree in wildlife biology or natural resources preferred.
