

## A. Review Team Schedule and Description

### A.1 Review Team

**Dr. Larkin Powell**, Professor of Conservation Biology and Animal Ecology, University Nebraska at Lincoln. Teaching/research. My areas of study attempt to explain how management of landscapes affects wildlife populations. Research projects are focused on private lands or state/federal properties. I have students working on projects assessing grazing management, Farm Bill conservation programs, prescribed burning, and other management-related issues. I have worked on projects involving forest and grassland songbirds, upland game birds, sandhill cranes, quail-doves, waterfowl, small mammals, mesopredators, painted turtles, and raptors. Teaching, research, extension. [sgrado@cfr.msstate.edu](mailto:sgrado@cfr.msstate.edu); 662-325-2792. Areas include outdoor/forest recreation, wildlife economics, human dimensions of natural resources, urban and community forestry, eco-tourism.

**Dr. Andrew Londo**, Professor and Assistant Director of Agriculture and Natural Resources, The Ohio State University, 32 Agricultural Admin. Bldg., 2120 Fyffe Road, Columbus, OH 43210, (614) 292-4077, [londo.2@osu.edu](mailto:londo.2@osu.edu). Dr. Londo, a professor of silviculture until taking on an administrative assignment has also served as Extension forestry coordinator at Mississippi State University. A highly respected scholar, Londo is known for his research in prescribed fire, forest health, mine reclamation, carbon sequestration, soils, forest management, intensive pine silviculture and non-industrial private forest landowner issues. Londo has authored 190 journal articles, books, chapters, papers, abstracts, publications and magazine articles. He has also been awarded grants totaling \$5.4 million to work on 39 projects, including the Western Gulf Longleaf Pine Restoration Project and the Southern Pine Beetle Prevention Project for the Mississippi Forestry Commission.
