EXPERIENCE

AGRICULTURAL TECHNICIAN

Youngquist Farm

4/1992 - present
Kiron, IA

- Aided in all aspects of a modern corn, soybean and feeder cattle family farming operation including but not limited to the safe and proficient operation and maintenance of tractors, trucks, combine, tillage and tiling equipment, sprayer, bulldozer, scraper, and backhoe.

PROJECT MANAGER

Wetland Habitat Restorations

7/2012 - 4/2013
Minneapolis, MN

- Responsible for the supervision of all field personnel while completing ecological restoration, specializing in watershed best management practices, trout stream restoration and invasive species removal on urban residential and large-scale natural areas
- Coordinated and managed crews and contractors
- Interacted with public and private landowners while delivering high quality projects on time, according to required specifications

FIELD COORDINATOR

RESTORATION TECHNICIAN

Great River Greening

6/2011 - 11/2012
11/2010 - 06/2011
St. Paul, MN

- Directly supervised all field crew personnel while implementing ecological restoration management plans
- Managed volunteer crews, contractors, school and community groups
- Represented Great River Greening at volunteer events, public meetings and in interaction with public and private landowners
- Implemented ecological restoration plans through chain sawing, native plantings, stream bank restoration and prescribed burns
- Managed large groups of volunteers during restoration events

LANDSCAPE DESIGN PROJECT MANAGER

Turf & Landscape, Inc.

4/2009 - 4/2010
Sumner, IA

- Designed residential and commercial landscape plans, estimated all costs, met with clients, and supervised installation
- Coordinated the logistics of a small office environment

GRADUATE ASSISTANT

Iowa State University, Department of Environmental Sciences

8/2007 - 12/2008
Ames, IA

- Assisted with classroom duties and research projects
- Managed students during out-of-classroom activities

LAND STEWARDSHIP CREW LEADER

Iowa Natural Heritage Foundation

5/2007 - 8/2007
Des Moines, IA

- Supervised a team of 8 college students for the Land Stewardship program
- Worked with public and private landowners on invasive species removal with the goal of promoting ecological diversity and increasing ecosystem health in areas of tall grass prairie, woodland, and oak savanna throughout the state of Iowa

CORPSMEMBER

AmeriCorps National Service

5/2006 - 11-2006
Angelus Oaks, CA

- Member of the Los Angeles Conservation Corps' Forest Recovery Team
- Worked primarily in fuel reduction to decrease the danger of wildfire
