Volunteer Description:

At the Wildlife Care Clinic, interns are expected to take an active role in rehabilitation of injured, sick or orphaned wild animals. A general curiosity in medicine and animal care is warranted, as well as the desire to learn.

Duties Include:

- Partake in everyday cleaning and maintenance of the clinic.
- Oversee volunteer activity, keeping them both organized and occupied.
- Be involved in patient care including administering treatments, feeding, cleaning, and maintaining written and electronic records.
- Will be required to be on call, meaning you must be dependable and flexible to provide after-hour care during emergency cases.
